EXECUTIVE SUMMARY

Detail-oriented and analytically driven Data Analyst with experience transforming financial, operational, and performance data into actionable insights that support business decision-making. Skilled in SQL, Python, Excel, Power BI, and Tableau, with hands-on experience in financial reporting, data validation, dashboard development, workflow automation, and stakeholder-facing analysis. Proven ability to improve reporting accuracy, automate recurring analysis, and build clear, decision-ready insights for cross-functional teams.

Experienced working with large datasets, supporting finance-related reporting, and collaborating across teams to improve data quality, visibility, and process efficiency. Adept at translating business questions into analytical outputs and presenting findings in a clear, structured, and practical way. Currently pursuing a Data Science degree and passionate about using data to support smarter business and financial decisions in fast-paced, remote-first environments.

PROFESSIONAL EXPERIENCE

Melanin Tax Solutions USA - Remote

Operations & Executive Assistant

May 2026 – August 2026

- Provided executive and operational support for a U.S.-based tax consulting firm, enabling efficient day-to-day business operations.
- Managed CRM systems including HubSpot and GoHighLevel, maintaining accurate client records and supporting follow-up workflows.
- Designed and optimized operational workflows using ClickUp and Notion, improving task visibility and team efficiency.
- Coordinated client communications, appointments, documentation, and internal follow-up processes across multiple projects.
- Developed Standard Operating Procedures (SOPs) and process documentation to improve consistency and scalability.
- Supported executive decision-making through research, reporting, workflow analysis, and operational recommendations.
- Leveraged AI-powered productivity tools to streamline documentation, content drafting, meeting summaries, and administrative processes.
- Collaborated remotely with leadership while maintaining confidentiality, professionalism, and high service standards.

Mwananchi Credit Ltd. Nairobi, Kenya

Data Analyst

March 2025 – September 2025

- Analysed large financial and operational datasets to identify business trends and support data-driven decision-making across Finance, HR, and IT teams.
- Automated recurring performance and financial reports in Excel using advanced formulas, reducing manual workload by 31% and accelerating reporting cycles.
- Designed and maintained interactive Power BI dashboards tracking repayment trends, portfolio performance, and customer segmentation, improving visibility and decision-making by 23%.
- Conducted detailed data validation, reconciliation, and quality checks to remove inconsistencies and duplicates, improving reporting accuracy to 97%.
- Supported data preparation for payroll and HR performance metrics, ensuring accurate records and structured inputs for internal financial processes.
- Prepared structured analytical summaries and performance reports for leadership planning discussions.

ALX Africa Remote

Program Delivery Intern – Learning Programs (Cybersecurity)

September 2025 – May 2026

- Analysed learner engagement, attendance, and retention data using surveys, platform metrics, and interviews to identify behavioural patterns, risk factors, and performance trends.
- Produced weekly insight reports with data-backed recommendations, improving learner experience, programme execution, and retention outcomes.
- Conducted learner journey analysis to identify drop-off points and support targeted intervention planning.
- Synthesised qualitative feedback and quantitative trends into clear, actionable insights for programme and product teams.

Pathway Reviewer (Part-Time)

May 2025 – September 2025

- Assessed learner milestone submissions and provided structured feedback, improving project quality and conceptual understanding by 19%.
- Identified recurring learning gaps across cohorts and collaborated with mentors to refine course guidance, enhancing academic consistency.
- Maintained a 100% on-time feedback delivery rate and contributed insights to curriculum improvement discussions based on learner progress data.

Pamoja Forum Remote

Operations & Administrative Support Assistant

September 2024 – March 2025

- Supported day-to-day operational coordination for remote programmes, maintaining tracking systems and cross-team workflows.
- Updated CRM and tracking systems to maintain accurate records of participants, communications, and ongoing activities.
- Assisted with event planning, coordination, and administrative logistics for virtual and community-focused initiatives.
